

READ and SIGN

As part of my participation at the PENNBOC conference, I have registered to participate in a field trip to one or more construction sites or modular housing construction facilities.

As a condition of inclusion in this field trip, **I acknowledge that ...**

- the sites are not owned or otherwise controlled by PENNBOC;
- my presence on the site may expose me to readily observable or hidden dangers which can cause harm to my person and property;
- I and I alone am responsible for my actions on the site, and it is my sole obligation and responsibility to exercise reasonable care to avoid harm to my person and property;
- While on the site, **I and I alone am responsible to provide and wear suitable eye, foot and head protection**, subject to the approval of the "site host" who may or may not be the site owner;
- activities and conditions at visited sites will present opportunities for learning and subsequent discussion with others;

As a condition of my participation in this field trip, **I agree...**

- that the site host, at his sole discretion, may, without any recourse on my part, restrict the areas of the site which I may enter or bar me entirely from entry to the site;
- that following the field trip, in conversations or any communication whatsoever, I will not divulge the site's address, name of the owner, or name of the site host, or otherwise enable others to determine the sites visited. *This in no way prevents discussions about lessons learned with interested parties.*
- **my presence on the site is exclusively for educational purposes.** *My presence is that of a student, not that of a code officer or an agent or employee of the municipality or any other code enforcement entity as it relates to the sites visited.*
- that I will save, defend and hold harmless PENNBOC, its officers, directors and contractors, the site host, the site owner and any other party from any claim or assertion that any harm that may befall me was due to any action or inaction of any of the afore named. *This in no manner relieves my employer from statutory or contractual obligations which may arise from harm that may befall me.*

I have read, understood and willingly signed this statement intending that I, my family members and my survivors will be bound by the terms above with the same force and effect as if they had individually signed this document.
